INSIGNIA IN-OFFICE TRAINING

*Two days that could
change everything*

INSIGNIA IN-OFFICE TRAINING

This engaging course will teach participants the Insignia System through a combination of lectures and hands-on (live patient) training.

Get hands-on, interactive training on the **Insignia System - the most advanced digital orthodontic system available**. This in-office Insignia training session in Madrid, Spain will be led by Dr. David González Zamora, an international speaker and educator who has completed hundreds of Insignia cases. This engaging course will teach participants the Insignia System through a combination of lectures and hands-on (live patient) training.

Participants are **limited to 4 clinicians per course** to ensure maximum participation and learning.

WHY TAKE THIS COURSE?

— *How to integrate Insignia into your practice*

This course will take the Insignia practitioner from novice to knowledgeable. The course agenda includes topics in learning how to effectively communicate case planning with technicians, successful keys with indirect bonding and clinical discussions in biomechanics.

You will learn **how to integrate Insignia into your practice** and see hands-on how it is done.

You will also be taught how to market, price and sell Insignia to your patients.

This course allows experienced Insignia orthodontists **to take their practice to a new level** with tips that can help them transition from another bracket system to Insignia.

Throughout his career, he has combined his work as an **orthodontist** and **teacher**.

DR. DAVID GONZÁLEZ ZAMORA

— *Specialist in the Insignia System*

Dr. David Gonzalez received his dental degree at the **European University of Madrid** (UEM) in 2002. Subsequently, he completed his **Master's Degree in Orthodontics and Dentofacial Orthopedics** at Southern University of Mississippi.

Throughout his career, he has combined his work as an orthodontist and **teacher** serving as a Professor at the Orthodontics Master's Degree programs at both the Alfonso X El Sabio University and the European University of Madrid.

For over nine years, he served as the **President of New Technologies Committee** at the Official College of Dentistry and Stomatologist of the 1st Region.

He is a **member of the World Federation of Orthodontists**, a member of the American Association of Orthodontists, and lectures both nationally and internationally.
